PART 1

1. Mayor's Report

To be tabled in Council.

Recommendations

- a) That the draft annual budget and its supporting documents (proposed tariffs, reviewed /draft policies and financial plan) for the MTREF 2023/2024 to 2025/26 be considered.
- b) That the total budget of **R 689 453 000** be considered of which **R646 320 000** is operational and **R43 183 000** is capital as per schedule A1, A4, A5 and A7.
- c) That the total expenditure budget of **R 670 271 000** should be considered against the revenue budget of **R646 320 000**.
- d) That the draft A Schedules (1-10) and supporting schedules should be submitted to Council as part of supporting documents and be approved.
- e) That Council approve the capital expenditure by vote and associated category as well as funding reflected in the budget on schedules A5 and A9.
- f) That Council approve the indicative estimates for the two outer years stipulated in the Schedules.
- g) That the deficit recorded in Table A4 is due to non-cash items.
- h) That the Council acknowledges that its statement of financial performance(A4), has recorded a deficit of **R23 951 000.**
- i) That the approved budget of the Council for the financial year 2023/2024 and the multi –year and single year capital appropriations as set out in accordance with Municipal Budget and Reporting Regulations(MBRR) be approved.
- j) That the Financial Plan be approved and implemented as per the resolution of the adjustment budget 2021/22 FY to improve the collection rate.
- k) That the tariffs proposed in the tariff list be approved.

1.1. Executive Summary

The aim of this report is to present a coherent plan to achieve the vision of the municipality. The intention of this report is to link, integrate and co-ordinate development plans for DLM which is aligned with national, provincial and district development plans and planning requirements binding on the municipality in terms of legislation.

1.2. Purpose of the Report

The purpose is to table this report in terms of section 24 of the MFMA No.56 of 2003 before Municipal Council a report to consider of the Draft Annual Budget and its supporting documents which are amended budget policies, funding plan and tariffs for the 2023/2024 to 2025/26 Medium - Term Revenue and Expenditure Framework.

1.3. Background

The Municipal Finance Management Act No 52. Of 2003 section 16(2) stipulates that an annual budget must be compiled and be tabled in Council by 31 March in terms of section 17(3) by the reviewed Integrated Development Plan, draft Service Delivery Budget Implementation plan. The Municipal Structures Act 117 of1998 section 56(2) requires the Mayor to recommend to Council strategies, programmes and services to address community priority needs. On the other hand, the Municipal Systems Act 32 of 2000 section 34(a) requires that municipality must review its IDP annually in accordance with its assessment of its performance measurements in terms of section 41

- I. Subsequently, the budget must be made available for public consultation. The Mayor must the consider all the inputs made by all revenant stakeholders including communities, and a final budget must be submitted to Council for consideration a month before the start of the financial year.
- II. A schedule of public participation will be made available to all municipal social media platforms.
- III. A separate report of the public participation will be presented to Council when tabling the final budget

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Council remains

financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities are reviewed on an annual basis as part of the planning and budgeting process. A critical review was also undertaken of expenditures on non-core and 'nice to have' items. The Ditsobotla Local Municipality has adopted a cost containment policy and subsequent to the issuing of MFMA Circular 82. A cost containment policy has been adopted in line with the Cost Containment Regulations.

1.4. Legislative Requirements

This budget has been compiled based on various MFMA Circulars, to name the few recent, Circular 122 and 123 issued by National treasury on 09 December 2022 and 03 March 2023 respectively. The Annual Budget will also take into consideration the inputs made by Provincial Treasury through Municipal Budget and Benchmarking engagements. The key objective is to assist the municipality to table a funded budget as the directive from National Treasury over certain period.

- The MTREF for 2022/23 to 2025/26 were compiled in accordance with the requirements of the relevant legislation, of which the following are the most important:
- The Constitution of the Republic of South Africa, Act 108 of 1996;
- The Municipal Structures Act, Act 117 of 1998;
- The Municipal Systems Act, Act 32 of 2000;
- The Municipal Finance Management Act, Act 56 of 2003;
- The Municipal Budget and Reporting Regulations promulgated on 17 April 2009; and
- The 2023 Division of Revenue Bill.

1.5. Budget Principle Guidelines and Challenges

- a) The following budget principles and guidelines were considered
- Headline inflation predictions in some of the revenue
- National Electricity Regulator of South Africa (NERSA) guidelines;
- The priorities and targets in relation to the key strategic focus areas as determined in the IDP;

- Tariff and property rates revenue stream increases should be affordable and the NT guideline is that it generally should not exceed inflation as measured by the CPI,
- Many input costs in rendering services are beyond the control of the municipality. In addition, tariffs must be cost reflective, and should take into account the need to address infrastructure backlogs; which is not entirely the case in DLM.
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- The implementation of the Financial Plan approved with the Adjustment Budget.
- The need to enhance the municipality's revenue base;
- Cost containment policy considered;
- There will be no external borrowings taken to fund the Capital Budget, in view of financial affordability considerations.
- The implementation of mSCOA version 6.7

b) The main challenges experienced during the compilation of the 2023/2024 budget can be summarised as follows:

- Credibility of data due to financial system migration;
- Electricity disruptions, raw material shortages and rising input costs will continue to limit output in the short to medium term. In contrast, progress on energy reforms poses upside risks to fixed investment and the overall economic outlook;
- The increased of bulk electricity above the CPIx;
- Aging infrastructure for water, roads and electricity;
- Slow implementation of structural reforms continues to weigh on business confidence and private investment.
- Compensation of employees remains a major cost pressure. It remains critical for municipalities to adhere to compensation ceilings, manage headcounts proactively and conduct staff audit to ensure the staff complement is aligned to the approved organogram.

- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- Increased costs of security and legal services;
- The ongoing difficulties of economic growth both Locally and National. Pre and post COVID 19.
- Maintaining revenue collection rates at the targeted levels;

1.6. Consolidated Budget Overview

For the municipality to render quality service delivery to its community, it needs to generate sufficient revenue. In this tough economic conditions of high unemployment and post COVID19 adverse, the municipality is extremely under severe pressure to render quality services due to factors alluded. A strong revenue management is also required and vital to have a sustainable financial sustainability of the municipality. The expenditure to address and or render quality services will always inevitably be higher than the available funding. The municipality will be increasing its budget by the CPI as per MFMA circular no. 123 from National Treasury.

1.6.1. The table below outlines the budget Overview

The following macro-economic forecasts were considered when preparing the 2023/24 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2021 - 2026											
Fiscal year	2021/22	2022/23	2023/24	2024/25	2025/26						
-	Actual	Estimate									
CPI Inflation	4.9%	6.9%	5.3%	4.9%	4.7%						

Table 4. M to attain a 0004 0000

Source: Budget Review 2023.

The information below gives a detailed analysis of the cash position of the municipality.

Table 2: Budget Overview

Description	Budget Year +1 23/24	Budget Year +2 24/25	Budget Year +3 25/26	
Beeerpaen				
R thousands				
Total revenue excluding capital transfers	646 320	693 296	754 502	
plus Capital Transfers	43 133	44 982	46 909	
Total Budget for the year	689 453	738 278	801 411	
Total budget	689 453	738 278	801 411	
minus Total expnditure inclusive grants	(713 404)	(741 815)	(796 387)	
Total Budget: surplus(deficit)	(23 951)	(3 537)	5 024	

- The overall budget disclosed in the table 2 indicates that the municipal budget without capital budget is estimated at R646 million, with the grant received amounting to R43million. The projected revenue and income amount to R689 million.
- II. Should the municipality collect 100 % of its billed revenue, then the municipality will be able to finance its operational costs projected at R503 351 million exclusive of noncash items(Provisions). However, given the economic conditions and challenges highlighted in 2.4(b), the municipality's financial situation is in the red with deficit of R23 million. This will be discussed in detail under the financial performance.
- III. Capital expenditure amount will be discussed in detail under the capital budget heading.
- IV. The depreciation and debt impairment are non-cash items because they are provisions made in the budget to effect the accounting entries which does not affect **cash in the bank such** that the write off obsolete assets/de-recognition and irrecoverable debts.
- V. The net effect of including the non-cash items into the budget as required by circulars from National Treasury, result the budget to have a deficit of **R 23 million**.
- VI. With the implementation of the Financial Plan, the deficit over the MTREF will be reduced.
- VII. The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. The following table represent the tariff increase in terms of percentage:

Description	Proposed tariff %
Water	5.3%
Electricity	18.7%
Refuse removal	5.3%
Water waste	5.3%
Miscellaneous	5.3%

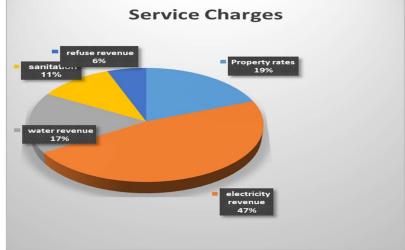

Figure 1: Operating Revenue Service Charges for the 2023/24 Financial Year

I. Table above gives a detail revenue by source how the municipality funds its expenditure. It must be noted that the information disclosed in the table above, was

based on the budgeted figures for 2022FY. This is purely attributed to unavailable actual performance data for the current FY (2022/23). Therefore, the 2021/22 FY data could not be considered because figures are unaudited.

- II. **Property rates**: The projected bill is amounting to R76,7 million on property rates. This is attributed the following:
 - The R80 million was projected based on the CPI of 5.3%
 - After thorough assessment of valuation, it was discovered that there are houses that were not billed in the financial system, a further R5 million will be added.
 - The valuation roll of the municipality in the financial system is still under correction phase which will be finalised in the start of the new financial year. It must be noted that the valuer has been appointed to start the new generation of the valuation roll.
- III. **Electricity**: The projected revenue for electricity is R224 million. There is a significant increase of 18.7% factored to the component.
- Water and sanitation services: The projected revenue for water and sanitation is R72 million and R46 million respectively.
- V. Refuse removal: The projected revenue amounts to R24 million.
- VI. **Fines, traffic fines, rental of facilities, agency fees and interest earned on arrear debt**: This secondary class of revenue contributes 3% of the total revenue budget.
- VII. **Transfers and subsidies:** The grants and subsidies disclosed in this budget, were gazetted in the Division of Revenue Bill published in February 2023 as well as the Provincial gazette.

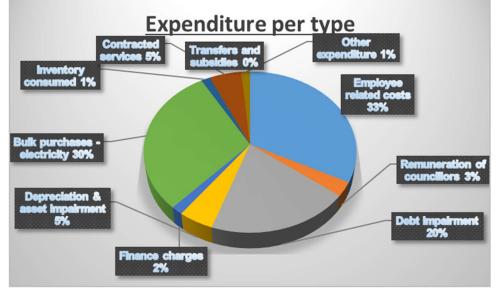

Figure 2: Operating Expenditure by type for the 2023/24 Financial Year

 Employee related cost: This component is one of the main contributing costs of the opex. The budgeted allocation for salaries and allowances for the 2023/24 financial year totals R217 million, which equals 33.7% of the total operating budget. Salary increases have been factored into this budget at a percentage increase of 5.4% for municipal staff and senior managers. As part of the Municipality's cost reprioritisation and cash management strategy non-critical vacancies have been frozen for the MTREF period.

- II. Remuneration of councillors has been increased by 5.3%. The cost associated with the remuneration of councillors is determined by the Minister of Cooperative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget.
- III. The second largest cost in the budget is the **bulk purchase**. The National Energy Regulator of South Africa (NERSA) is responsible for the price determination of the bulk costs of electricity. In January 2023, NERSA approved tariff increases of 18.7 per cent in 2023/24
- Contracted services remained the same. This line item includes all the services outsourced by the municipality such as consultant fees, security services, etc. It must be noted that all contracts of the municipality have lapsed.
- II. **Inventory consumed** and **other expenditure** components had decrease as result of cost containment measures.
- III. A provision of R11 million is made for **finance charges** to cater for interest charged on overdue creditors of the municipality.

					(13 140)	αεμικ

- I. The cash-flow budget gives the true projections of the municipal revenue and expenditure. It accommodates the arrear payments by the municipality(expenditure)
- II. The projected collection rate for the 2023/2024 FY is sitting at 60%.

- III. Information contained in Table 5 indicates slightly a different picture compared to Tables 3 and 4. This is attributed to the following:
 - The revenue budget of the municipality has decreased from R646 million to R503 million. The decrease is as a result of the 65% collection rate anticipated.
 - The expenditure component does not include the non-cash items therefore, there is a decrease in expenditure.
 - A provision of R200 million on Bulk purchases has been made. The budgeted amount will cater the current account of ESKOM. The municipality's payment plan was rejected by ESKOM therefore there is no legal agreement or payment plan in place. However, through the implementation of activities outlined in the Financial Plan as well as the Revenue Enhancement Strategy, the additional revenue anticipated will service the arrear debt. An adjustment will be made through the adjustment budget process to cater for this expenditure.
 - The nett effect of the revenue expected versus the expenditure result a deficit of R15 million. Therefore, the municipality's budget is not funded on the cash flow. It must be noted that there is a deficit on statement of financial performance (A4) amounting to R23 million.
- IV. The following measures **should** be put in place to improve the collection of revenue subsequently to have a funded budget:
 - The revised Financial Plan should be implemented in accordance with Council resolution **A11 subsection(g)**.
 - Billing module challenges be resolved by 30 June 2023.
 - o Credit control and debt collection be implemented fully.
 - Data cleansing (billing and valuation roll) be completed by end June 2023.

1.6.2. Grant Received

The table below details the grants to be received by DLM for the MTREF. The grants are divided into two categories, namely; operational grants (Equitable Share, Library and FMG) and Capital grants. The PIG is not disclosed as yet. The estimated amount to be rolled over to the 2023/2024 FY will be calculated at the end of the current year (2022/23).

It must be further noted that due to the slow and or non-spending of grants, the allocation is significantly reducing. Further to note is that the Expanded Public Works Program grant will not be received for the 2023/24 FY.

Table 6: Grant Received DoRB and Provincial Gazette

PART 2 SUPPORTING INFORMATION

2. Overview of Budget Process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition, Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act. The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Mayor. The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality's IDP and the budget, taking into account the need to protect the financial sustainability of the municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

In terms of section 21 of the MFMA, the Mayor is required to table the time schedule in Council ten months before the start of the financial year, which outlines how the process of IDP and budget will unfold and the preparation thereof.

2.3. Overview of the Budget Related Policies

The Budget Related Policies may be reviewed as part of the compilation of the Medium Term Revenue and Expenditure Framework for the 2023/2024– 2025/2026 period. The Budget related policies will be considered by Council in May 2023. The policies were reviewed as part of the budget compilation as required by the Municipal Budget and Reporting regulations, there are no material changes to the policies. The policies are:

- Budget Management
- Virement
- Rate Policy
- Tariff
- Credit Control and Debt collection
- Asset Management
- Cost Containment
- Supply Chain Management
- Indigent

2.4. Overview of budget assumptions

2.4.1. External influences

The budget policy framework for the next three years is designed to manage risk in a constrained fiscal environment, while building a foundation for economic growth which is supported by the implementation of the National Development Plan (NDP). The National Treasury MTBPS highlights that South Africa's economic performance has deteriorated over the past several years. GDP growth is projected to improve over the medium term as infrastructure constraints ease, private investment recovers and exports grow. Economic growth is expected to rise gradually over the medium term. This trend reflects a confluence of unfavourable global and domestic circumstances which impact on all spheres of government. Inflation and a nominal spending ceiling will put real budgets under pressure over the medium term, requiring Ditsobotla to work more efficiently.

2.4.2. General inflation outlook and its impact on the municipal activities There are five key factors that have been taken into consideration in the compilation of the 2023/24 MTREF:

- National Government macro-economic targets;
- The general inflationary outlook and the impact on Municipal residents and businesses;
- The impact of municipal cost drivers;
- The increase in prices for bulk electricity; and
- The increase in the cost of remuneration.

2.4.2.1. Revenue

- I. The estimated CPI for the 2023/2024 financial year is 5.3% and for the next two financial years at 4.9% (2024/2025) and 4.7% (2025/2026) respectively. (National Treasury MFMA Circular No 122 and 123). Furthermore, it must be noted that the CPI is the headline inflation informed by raw data which does not include a comparison in the rising cost of municipal expenditures from one period to a previous period.
 - II. Property rates tariffs increased with 5.3% and 4.9% respectively for the 2023/2024 and 2023/2024 financial years.
 - III. Refuse removal revenue has decreased significantly compared to 1920/21 FY with almost 50% based on the audited figures. Budgeted refuse removal tariff increases with 5.3% for the 2023/2024.
 - IV. Budgeted sanitation tariff increases with 5.3% for the 2023/2024 financial year.
 - V. An increase of 5.3% has been effected. The water tariff of the municipality is structured in an inclining form. The more the consumers uses the water, the higher the tariff. This is one of the interventions by municipality to curb water wastage in the community.
 - VI. The estimated Electricity tariff increase for the 2023/2024 financial year is 18.7% (Municipal Tariff Guideline Increase, NERSA).

2.4.2.2. Expenditure

- I. The South African Local Government Bargaining Council (SALGBC) determines the cost of-living increases by mutual agreement between the employer and the unions, the municipality has increased its employee related cost by 5.3%.
- II. Bulk electricity purchases increased with 18.7% (Municipal Tariff Guideline Increase, NERSA, Circular No. 122 MFMA).
- III. National government grants for the years 2023/2024 to 2024/2025 are as per the

Division of Revenue Bill (DoRB). Provincial government grants for the year 2023/2024 are promulgated in the Provincial Gazette.

Council is sensitive to the affordability and sustainability of the tariffs to be imposed. The detailed Tariff Listing is attached as Annexure B. Through the financial support derived from the financial plan and incentives envisaged through our budget related policies developed, and revenue enhancement strategy, Council is hopeful that the payment rate will increase. The collection rate for this budget is based on 60%.

2.5. Overview of the Budget Funding

The Municipality derives most of its operational revenue from the provision of services such as water, electricity, sanitation and solid waste removal. Property rates, operating and capital grants from organs of state and other minor charges (such as building plan fees, licenses and permits etc.). It is expected that the capital revenue will increase over the MTREF period as government grants will increase.

1. Surplus (Deficit) must reconcile with Budgeted Financial Performance																

The municipality is currently under financial recovery plan process. According to the information derived from the table above, the municipality is in the red that means it is unfunded and cannot be able to meet its obligations.

2.9. Contracts having Future Budgetary Implications

Municipality's contracts have lapsed, therefore, the municipality is currently doing the needs analysis on contract. However, the budget is provided for services such as security, FMS, etc.

Capital Expenditure Details

The following three tables present details of the Municipality's capital expenditure programme, firstly on new assets, then the renewal of assets and finally on the repair and maintenance of assets.

MBRR SA 34a – Capital expenditure on new assets by asset class.

MBRR SA34b - Capital expenditure on the renewal of existing assets by asset class.

MBRR SA34c - Repairs and maintenance expenditure by asset class.

MBRR SA35 - Future financial implications of the capital budget.

MBRR SA36 - Detailed capital budget per municipal vote.

MBRR SA37 – Projects delayed from previous financial year.

2.10. Legislation Compliance Status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

2.10.1. In year reporting

Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 MFMA reporting to the Treasuries (within 10 working days) has progressively improved.

2.10.2. Budget and Treasury Office

The Budget and Treasury Office has been established in accordance with the MFMA.

2.10.3. Audit Committee

Audit Committee period has lapsed. New members must be elected.

2.10.4. Procurement Plan

In terms of Municipal Budget Circular, No 94 for the 2019/2020 MTREF, it mentions slow spending of capital budgets by most municipalities and the negative impact of this on service delivery. It was therefore required that all municipalities compile a procurement plan to address a weak planning process. This document will be included as an Annexure to this document.

3. QUALITY CERTIFICATE

I,..... Acting Municipal Manager of Ditsobotla Local Municipality, hereby certify that the Adjustment Budget has been prepared in accordance with the Municipal Finance Management Act and the regulations made under the Act.
